## USD Pricing/Licensing

Valid from 17 June 2008

RealObjects GmbH  
Altenkesseler Str. 17 / B4  
66115 Saarbrücken  
Germany

Tel. +49 (0)681 985 790  
Fax +49 (0)681 985 7929  
E-Mail [info@realobjects.com](mailto:info@realobjects.com)

[WWW.REALOBJECTS.COM](http://WWW.REALOBJECTS.COM)

RealObjects reserves all rights to change the pricing and licensing terms for its products and services at any time. This pricelist is valid as of 17 June 2008 and supersedes all other pricelists issued/published prior to this date. All prices are in USD (\$) and are excluded VAT. European Union (EU) residents pay an additional 19% VAT, **if a valid European VAT ID number is not provided.**

**Educational Institutions**, such as schools, colleges, universities etc., will receive a thirty percent (30%) discount.

**Additional license packs** for the CPU License (1 CPU each) can be bought at the same price as shown below.

RealObjects will provide you with an **unlock key** (licensekey.xml) which enables the use of the edit-on Pro software license. The information contained in the unlock key will include the following: Type of license, the licensed geographical site or the number of licensed CPUs. During the online purchase process or within your written purchase order you might also have to provide the names of the server(s) on which edit-on Pro will be installed. RealObjects further reserves the right to introduce and use appropriate license enforcement techniques in its software, which are designed to prevent illegal use or distribution of its software. The license enforcement techniques might require activation of the software license. This may require establishing a temporary network connection to a RealObjects web service. RealObjects reserves all rights to modify the license enforcement techniques used in the its software at any time.

Please note: **edit-on Pro 5 is not 100% compatible with edit-on Pro 2.x/3.x** because there are a number of differences in the API and in the content format. Documents created with edit-on Pro 2.x/3.x may not be compatible with this version and vice versa. However, edit-on Pro 5 simplifies the usage of almost all legacy content by providing an integrated conversion mechanism based on W3C's HTML TIDY technology.

### CPU License

Use the Software in an Intranet/Extranet, or over Internet installation with non-anonymous or anonymous users. The use is limited to the number of CPU licenses bought with/for the Software. One CPU license is required for each CPU of the server(s) running your application/system which embeds edit-on Pro. It does not matter how edit-on Pro is technically separated from your application/system. Regardless of where or how edit-on Pro is loaded, all CPUs that serve the application/system which embeds edit-on Pro have to be licensed. The CPU License is valid for 1 (one) CPU, and licenses for additional CPUs can be bought in license packs with 1 (one) CPU license each. A CPU license includes access for an unlimited number of users to connect from either inside the corporate local area network (LAN), wide area network (WAN), or outside the firewall.

The CPU license also matches the needs of **Application Service Providers (ASP)**. An ASP is a service firm which deploys, manages, and delivers application capabilities to multiple entities from a data center, across a wide area network, and/or through centrally-located server(s) in a "rental" or lease agreement.

### Enterprise Site License

Use the Software in an Intranet/Extranet or over the Internet with non-anonymous users, e.g. authenticated, closed user groups. The Enterprise Site License permits (i) an unlimited number of users to use the Software from any personal computer or computer terminal within the site facilities, including those attached to a Local Area Network on the Licensed Site; and (ii) a limited number of users ( $\leq 10\%$  of the actual number of on-site users) to use the Software from personal computers or computer terminals connected to the Licensed Site through a Wide Area Network and/or by any form of remote or telecommunication access. The Enterprise Site License is valid only for 1 (one) Site (= geographical location = single physical site, not website) within 1 (one) organization/company/firm, but without user limitation.

The **1-Year Support & Maintenance Pack** entitles you to receive priority technical support and all maintenance releases or updates or upgrades for the duration of the support period. It is available at the time of purchase of a license or upgrade at the cost of 20% of the software license fee. You can renew the 1-Year Support & Maintenance Pack until the end of the subscription period. The cost of renewing is 20% of the software license fee on the renewal date.

## License

	<b>CPU License</b> ( 1 CPU, Unlimited User )	<b>Enterprise Site License</b> (1 Geographical Site, Unlimited User, 1 Organization )
<b>edit-on Pro 5</b>	3.199.00 \$	5,980.00 \$

## 1-Year Support & Maintenance Pack

	<b>CPU License</b> ( 1 CPU, Unlimited User )	<b>Enterprise Site License</b> (1 Geographical Site, Unlimited User, 1 Organization )
<b>edit-on Pro 5</b>	639.80 \$	1,196.00 \$

The 1-Year Support & Maintenance Pack entitles you to receive priority technical support and all maintenance releases or updates or upgrades for the duration of the support period. It is available at the time of purchase of a license or upgrade at the cost of 20% of the software license fee. You can renew the 1-Year Support & Maintenance Pack until the end of the subscription period. The cost of renewing is 20% of the software license fee on the renewal date.

## Upgrades to edit-on Pro 5

	<b>CPU License</b> ( 1 CPU, Unlimited User )	<b>Enterprise Site License</b> (1 Geographical Site, Unlimited User, 1 Organization )
<b>to edit-on Pro 5 (with a valid upgrade subscription for edit-on Pro 2.x/3.x/4.x) <sup>1)</sup></b>	<b>free</b>	<b>free</b>
<b>to edit-on Pro 5 (without having a valid upgrade subscription for edit-on Pro 2.x/3.x/4.x)</b>	2,133.00 \$	3,987.00 \$

With the upgrade to edit-on Pro 5, the customer may no longer use edit-on Pro 2.x/3.x/4.x. The edit-on Pro 2.x/3.x/4.x license and the right to use it terminates by upgrading to edit-on Pro 5. The customer declares and warrants that he/she has entirely removed the edit-on Pro 2.x/3.x/4.x software previously licensed to them for use under the terms of the Software License Agreement. RealObjects will not provide further support, or process changes of license keys (e.g. add/remove server names and IPs) for an edit-on Pro 2.x/3.x/4.x license already upgraded to edit-on Pro 5. It is not possible to downgrade again to edit-on Pro 2.x/3.x/4.x.

1) The duration of the subscription period will not be influenced.
