

MULTI-COLUMN SAMPLE

Basic Layout

On the left there are two columns with text content filling both columns sequentially. On the right the text content is balanced equally between both columns.

Sequential Fill	Balanced Fill
<p>Lorem ipsum magna aliquyam erat, sed diam voluptua.</p> <p>dolor sit amet, consectetuer sadipscing elit, sed diam nonumy eirmod tempor invidunt ut labore et dolore</p>	<p>Lorem ipsum elit, sed diam nonumy eirmod tempor invidunt ut labore et dolore magna aliquyam erat, sed diam voluptua.</p> <p>dolor sit amet, consectetuer sadipscing</p>

Gaps and Rules

The text content below is separated into columns with widened gap in between. Inside the gap a column rule is shown.

<p>Lorem ipsum</p> <p>dolor sit amet, consectetur sadipscing elit, sed diam nonumy eirmod tempor invidunt ut labore et dolore magna aliquyam erat, sed diam voluptua. At vero eos et accusam et justo duo</p>	<p>dolores et ea rebum. Stet clita kasd gubergren, no sea takimata sanctus est Lorem ipsum dolor sit amet. Lorem ipsum dolor sit amet, consetetur sadipscing elit, sed diam nonumy eirmod tempor invidunt ut labore et dolore magna aliquyam erat, sed diam voluptua.</p>	<p>Duis autem vel eum iriure dolor in hendrerit in vulputate velit esse molestie consequat, vel illum dolore eu feugiat nulla facilisis at vero eros et accumsan et iusto odio dignissim qui blandit praesent luptatum zzril delenit augue dui dolore te feugait nulla facilisi.</p>
----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

Automatic Page Break

The automatic page break splits the Multi-column element and its text content fills the columns of both pages in order.

<p>Lorem ipsum</p> <p>dolor sit amet, consectetur sadipscing elit, sed diam nonumy eirmod tempor</p>	<p>invidunt ut labore et dolore magna aliquyam erat, sed diam voluptua. At vero eos et accusam et justo duo dolores et ea rebum. Stet clita kasd</p>	<p>gubergren, no sea takimata sanctus est Lorem ipsum dolor sit amet. Lorem ipsum dolor sit amet, consetetur sadipscing elit, sed diam</p>

duis dolore te feugait nulla
facilisi.

Manual Column Breaks and Automatic Column Break Prevention

The red column-break forces a break after the first paragraph, the green column-break forces a break before the third paragraph. The paragraph inside the blue block avoids being broken inside and moves to the next column if it doesn't fit into the current column.
